Equity Tracker

Your RSUs and ESPP, in rupees. Schedule FA for any year.

Every employer, every broker, in one place. Values use the SBI TT buying rate, and every number shows the price and rate behind it.

NEEDS YOUR ANSWER

⚠ **VMware shares became Broadcom**

Your E*Trade file shows 120 VMW shares turning into 30.24 AVGO shares and $8,640 cash on 22 Nov 2023. Your 11 VMware lots will carry on as AVGO, keeping their original vest values.

[Looks right] [Edit numbers]

⚠ **4 GOOGL vests only show shares received**

The 2022 rows list shares deposited after tax, not shares vested. Schedule FA only needs what you hold, so net shares are usually fine.

[Use shares received] [Enter withheld]

HANDLED FOR YOU

✓ **GOOGL 20-for-1 split** on 15 Jul 2022. 6 earlier lots counted in post-split shares.

✓ **Company names and addresses** filled in for Alphabet, Broadcom and Microsoft.

Today: GOOGL $241.50, ₹88.40 per $. Real values depend on price and rupee on each vest date.

Shares withheld for tax

- (●) **Same as your last vest** — 9 of 25 shares on 15 Jun — 36%
- ( ) **Income up to ₹50 lakh** — 30% + cess — 31.2%
- ( ) **₹50 lakh – ₹1 crore** — +10% surcharge — 34.3%
- ( ) **₹1 – 2 crore** — +15% surcharge — 35.9%
- ( ) **Above ₹2 crore** — +25% surcharge (new regime cap) — 39%

For work done in India, the vest is taxed as salary. Your employer withholds shares worth the TDS, at your top slab plus surcharge and 4% cess, rounded up to whole shares. Any extra comes back as cash or salary.
